## ITALIAN RADIANCE

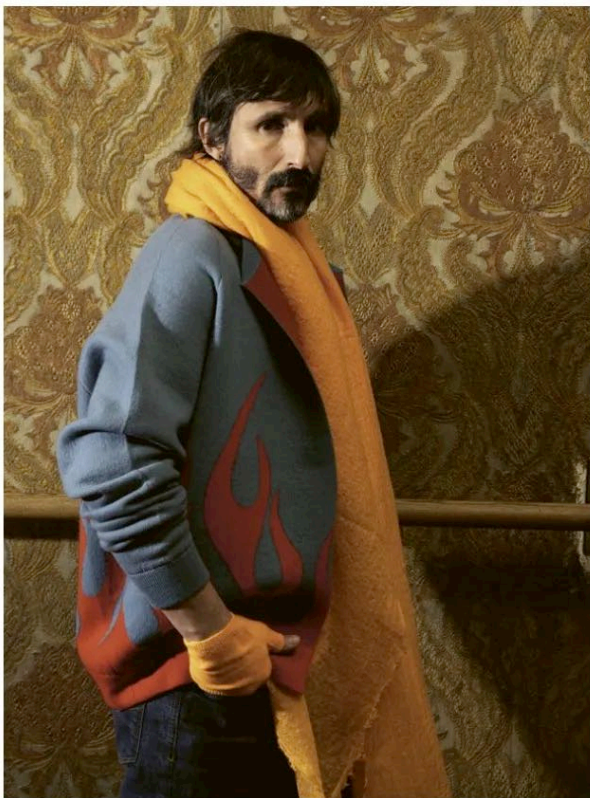

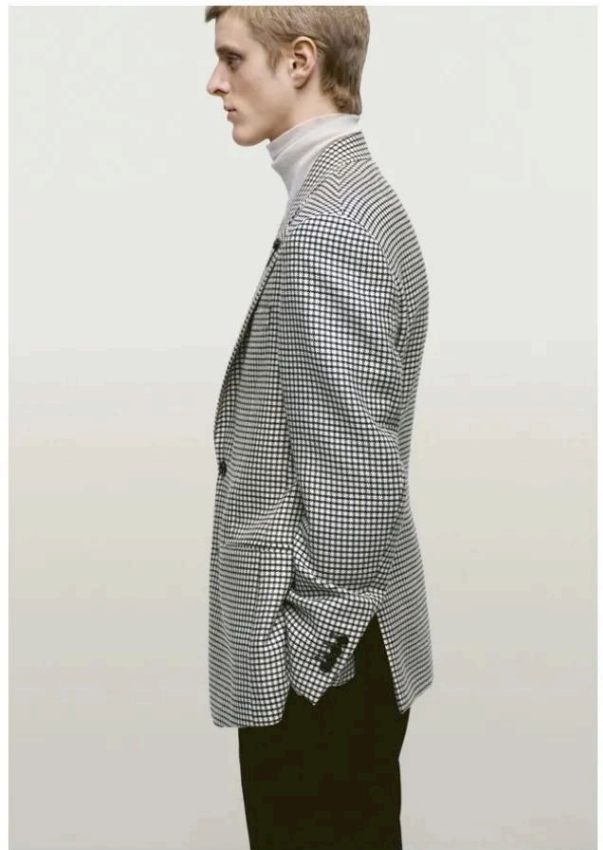

Dolce&Gabbana brings together Italy's rich jewellery design tradition with the allure of diamonds in its new Fine Jewelry Collection 'Easy Diamond' which embodies brilliance and features necklaces, earrings, ear cuffs, and bracelets.

In all its pieces the exceptional quality of the diamonds – stones synonymous with resilience and timelessness – is showcased through various cuts, sizes, and settings, all designed to enhance their natural radiance. File rouge of the collection is the use of twisted wire, an ancient technique introduced by Arab and Spanish artisans during the Middle Ages and brought to Italy during the Renaissance. In this collection the twisted wire is crafted from 18-carat white gold and adorned with subtle DG logos, creating an elegant interplay of movement and contrast.

These exceptional pieces not only radiate their own sparkle but also illuminate their wearers, while paying homage to the timeless craftsmanship that epitomizes Italian heritage.

## SWISS MADE CREATIVITY

The boutique multibrand group Tasoni, founded in 2014 by sisters Taya and Tary Sawiris, presents the new collaboration between the Swiss luxury knitwear brand Frenckenberger and Sylvie Fleury, an artist from Geneva whose works combine art and fashion, subverting mainstream aesthetics with unconventional mediums such as neon signs and synthetic fur textures, from an entirely feminine perspective. Bomber jackets, crew neck sweaters, balloon coats, scarves, and blankets are the stars of the Frenckenberger x Sylvie Fleury collection, characterised by bold flame designs in bi-colour palettes with neon shades, printed on soft cashmere sourced from Mongolia. A celebration of Swiss creativity and craftsmanship, these exclusive creations are available at the Tasoni boutique at 1 St. Peterstrasse, in the heart of Zurich.
